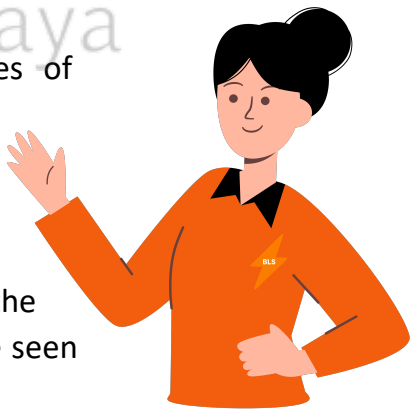
Ancient Connection

The exchange of ideas and commodities through these routes



- The ideas of the Upanishads and the Ramayana, the stories of Panchatantra, the Indian numerals and the decimal system thus could reach many parts of the world.
- The spices, muslin and other merchandise were taken from India to different countries.
- On the other hand, the influence of Greek sculpture and the architectural styles of dome and minarets from West Aisa can be seen in different parts of our country.
